Cable Containment Modules (of Multi-trade Integrated Mechanical, Electrical, Plumbing - MiMEP) : the future is here.

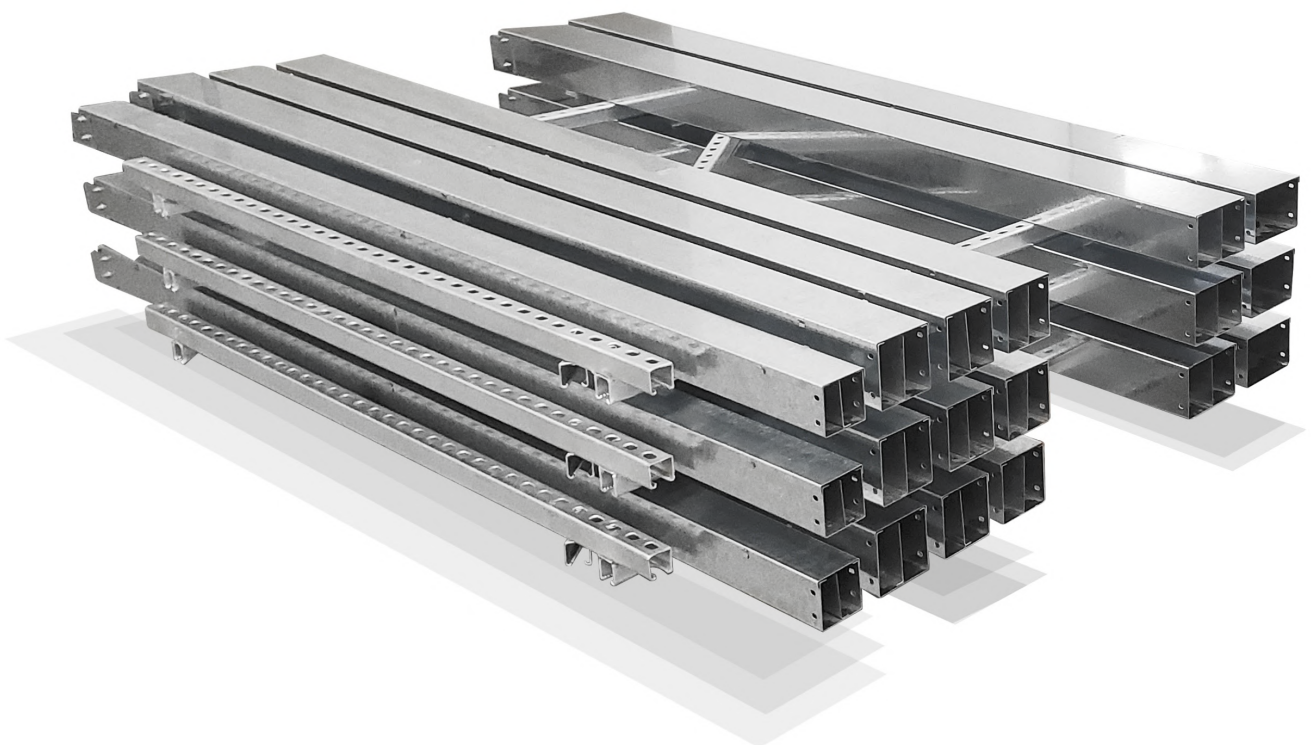

In ever-evolving Mechanical and Electrical systems (M&E), labour costs and installation complexities are always growing. The industry is starting to shift towards modular construction and procuring sections of cable containment frameworks, pre-made before site delivery (MiMEP).

As an industry leader for over 60 years, Lik Hung has expanded over 1100 sqm assembly space, restructured staff teams and expanded our expertise to realize this future of modular design. Find out how we can participate and help make your project a success.
